Bona PowerDrive **Connect**

Easy click-on for versatility

Bona PowerDrive Connect combines excellent performance with easy and safe operation. Mounted on the Bona FlexiSand 1.9, it can remove thick layers of lacquer, replacing the need for conventional belt sanding as well as create an exclusive wire brushed look and texture. Its specially developed click-on technology enables you to switch between disc and brush within a minute. The geared plate as well as the revolving discs ensures increased efficiency.

KEY BENEFITS

- Versatility, one drive for different sanding and brushing jobs
- Click-on technology
- Powerful for all challenges
